The Board of World Mission has developed a new Bible study curriculum, called “Everyone Wants a Better World,” with contributions from many Moravian congregations, agencies, ministries, and individuals. The study explores the UN Sustainable Development Goals through three units: Care for Creation, Care for Each Other, and Care for Right Relationships, with additional introductory sessions on the Moravian Guidelines for Biblical Interpretation and the Sermon on the Mount.

Each session includes Biblical reflection, a note on our Moravian identity, several ministry examples from congregations here in North America and around the world, and questions for discussion.

This curriculum is designed to be “a la carte” –use all 22 sessions as written, select just a few to focus on, or break sessions up into multiple gatherings (there is plenty of content to dive into!). There are also sermon resources and liturgies for each unit of the study, and a complementary children’s book will be available soon in the IBOC store.

Find the study and supplementary resources at MoravianMission.org/BetterWorld.

Historic 1740 Gray Cottage Undergoes Major Preservation Project

The public is invited to watch this rare preservation project as it unfolds throughout the month of August.

Work has begun to restore the 1740 Gray Cottage. The preservation project includes replacing the deteriorated bottom course of logs and repairing additional compromised logs. Replacement logs have been hand-hewn to match the original eighteenth-century materials and craftsmanship. Repairs will also include removing outdated packing materials from cracks that no longer meet current preservation standards.

The work is being done by Frank Stroik, a specialist in traditional carpentry methods, timber framing, and eighteenth-century log home restoration. All preservation work will follow the Secretary of the Interior's Standards for the Treatment of Historic Properties, ensuring that the Cottage's historic character and authenticity are preserved for future generations.

The public is invited to see firsthand how this colonial-era log structure is being preserved for future generations as skilled craftspeople replace the historic logs using traditional techniques. Visitors are welcome Tuesday through Friday between 9:00 a.m. and 3:00 p.m.

Funding for the project has been provided through a grant from the Pennsylvania Historical and Museum Commission's Keystone Historic Preservation Grant, a program funded by the Commonwealth of Pennsylvania. This project has also received funding from the Grow NORCO Grant Program through the County of Northampton Department of Community & Economic Development, as well as generous contributions from individual donors.

Properties inscribed on the World Heritage List, such as the Moravian Church Settlements in Bethlehem, Gracehill, Christiansfeld, and Herrnhut, are celebrated by UNESCO because of their 'Outstanding Universal Value' or OUV. However, these three words can encapsulate a wide variety of issues and themes, some of which may be relatively clear to all, but others of which may seem esoteric to the lay-person. Amongst the obligations UNESCO requires from property managers is the need to communicate OUV to a range of audiences. Drawing on examples from around the globe, this presentation will explore some of the strategies that world heritage managers and their partners can adopt to not just keep UNESCO happy, but to entertain and enrich the experiences of site visitors of all ages, backgrounds and interests.

Dr Simon Woodward has spent nearly 40 years working in the field of cultural and heritage tourism, planning, and development, with a particular interest in World Heritage issues. Based in the UK, he has advised public, private and third-sector clients in many parts of the world, including the UK and Europe, the Middle East, much of Africa, the Balkans, Caucasus, and Central Asia. He is a former Chair of the ICOMOS-UK Cultural Tourism Committee and is a Trustee of two heritage charities in the North of England.

This talk serves as the keynote lecture for the Inaugural Conference of the Institute for Moravian History and World Heritage, and will take place at Moravian University in the Hauptert Union Building (HUB).

In our most recent entry in our on-going blog series focusing on Moravians and the American Revolution, learn how the Moravian congregation in Winston-Salem spent a simpler day in 1783, one focused on giving thanks for the end of the violence and chaos.
